# COVID-19 treatments are available statewide.

**Coloradans who test positive or think they have COVID-19 should ask a healthcare provider about treatment.**

- Treatment works best if it's taken within a few days of getting sick. Seek treatment fast to lower the risk of serious illness.
- Some providers offer testing and treatment in an all-in-one experience called Test to Treat.
- Coloradans who are moderately to severely immunocompromised, or who can't get vaccinated against COVID-19, can take preventive medicine called Evusheld.
