Statewide
Key Updates

- Cases and percent positivity trends are variable by region in Colorado but overall trends in Colorado and the U.S. are relatively flat. Our decrease two weeks ago was followed by an increase last week but numbers look down again in the last few days.
- The 7-day moving average number of cases is ~2,100, up from ~1,800 last week but down from a peak of ~2,400 on June 9th (low of 303 in March).
- Hospitalizations are also up slightly from last week.
- CDC Nowcast modeling demonstrates increasing proportions of BA.4 and BA.5; combined representing about half of cases nationally and in region 8.
Ouray County metrics

Totals since 4/1/2020
- Cases: 975
- Breakthrough cases: 315
- Hospitalizations: 24
- Deaths: 6
- Outbreaks: 8
- Active Cases (last 10 days): 32
- Cases last 30 days: 64

Tests administered at Public Health during month of June: 155

*BA.2 variant identified in wastewater samples from April 11th
*BA.2.12.1 variant identified in wastewater samples from May 16th

COVID-19 Community Level
Recommended actions based on current level
Stay up to date with COVID-19 vaccines. Get tested if you have symptoms. Wear a mask if you have symptoms, a positive test, or exposure to someone with COVID-19. Wear a mask on public transportation. You may choose to wear a mask at any time as an additional precaution to protect yourself and others. If you are at high risk for severe illness, consider wearing a mask indoors in public and taking additional precautions.

Weekly Metrics Used to Determine the COVID-19 Community Level

<table>

COVID-19 treatments are available statewide.

Coloradans who test positive or think they have COVID-19 should ask a healthcare provider about treatment.

→ Treatment works best if it’s taken within a few days of getting sick. Seek treatment fast to lower the risk of serious illness.

→ Some providers offer testing and treatment in an all-in-one experience called Test to Treat.

→ Coloradans who are moderately to severely immunocompromised, or who can’t get vaccinated against COVID-19, can take preventive medicine called Evusheld.
