

ORRCA

Mission-

ORRCA collaborates to preserve ecosystem health and function across working landscapes and public lands while ensuring equitable access to sustainable recreation, thereby enhancing the region's quality of life.

Vision-

The community will have the resources to fulfill our conservation values and recreation opportunities based on collaborative evaluation of the region's natural landscapes, waterways, wildlife habitats, and existing recreation infrastructure.

Themes that guide ORRCA's vision include:

- Identify and balance outdoor recreation opportunities and conservation values. Prioritize a comprehensive plan for the region based on data that considers wildlife, healthy land and water, climate change, high-quality recreation experiences, agriculture, and resilient local economies.
- Educate about land stewardship, responsible recreation, and cultural history.
- Sustain a resilient community supported by diverse and active collaboration.
